Inside this tome of this book, including some traits from the Pathfinder Core A-Ccreatures, you'll find haughty celestials and ravenous Rulebook, can be found in Creature Traits on page 344. Dfiends, fierce animals and strange moving plants, new E-Gpeoples to interact with and horrid monsters to hunt Actions and activities the creature can use have the H-Down. And while this book details hundreds of creatures, appropriate icons next to those abilities' names noting L-Nit's only a portion of the myriad interesting creatures that how many actions they require. A creature always has the O-Rpopulate the world of Pathfinder. requisite proficiency ranks or other abilities required to use S-T what's listed in its stat block. For instance, a spellcasting U-Z To use this book, you need the Pathfinder Core creature can perform the Cast a Spell activity, and a AppendixRulebook, which contains the rules of the game and gives creature is never untrained with any of its items.you further understanding of each creature's rules and Sits place in the world. Using both of these books allows Some abilities are abbreviated in stat blocks andyou as the Game Master (or GM) to create stories of described in full in the Ability Glossary on pages 342–344.grand adventure and populate them with fearsome foes,possible allies, and friendly guides. CREATURE NAME LEVEL Most of the sections of this book describe a creature or RARITY TRAIT ALIGNMENT ABBREVIATION SIZE OTHER TRAITSa group of related creatures, present their game statistics,illustrate their place within the game world, and provide Perception The creature's Perception modifier is listed here,details about their behavior or society. followed by any special senses. In this introduction, you can find advice on how Languages The languages for a typical creature of that kind areto play these creatures in the game, including how to listed here, followed by any special communication abilities.read and use their statistics, advice on roleplaying their If a creature lacks this entry, it cannot communicate with ointeractions with player characters, and guidance on understand another creature through language.adjusting creature statistics to fit the needs of your setting. Skills The creature is trained or better in these skills. For Lastly, the appendix in the back of the book contains untrained skills, use the corresponding ability modifier.sections that provide information about frequently usedmonster abilities, creature traits, new rituals, uncommon Ability Modifiers The creature's ability modifiers are listed here.languages, and lists of monsters sorted by type and level. Items Any significant gear the creature carries is listed here. Interaction Abilities Special abilities that affect how a creaturePlaying Creatures perceives and interacts with the world are listed here.While the other players portray their characters, you AC, followed by any special bonuses to AC; Saving Throws Aas the Game Master get to play everyone else. Thissection provides the basics for using the creatures in this special bonus to a specific save appears in parentheses afterbook. It guides you through the process of reading and that save's bonus. Any special bonuses to all three savingunderstanding the creatures' statistics so the creature can throw against particular types of effects are listed after theeither provide a threat or serve as an ally in and out of three saves.combat. It also provides general advice for roleplaying HP, followed by automatic abilities that affect the creature'screatures to help provide more depth to the creatures in Hit Points or healing; Immunities; Weaknesses; Resistancesyour game's world. Any immunities, weaknesses, or resistances the creature has are listed here.Reading Creature Statistics Automatic Abilities The creature's auras, any abilities that automatically affect its defenses, and the like are listed here.Each creature's rules appear in a stat block, with a Reactive Abilities Free actions or reactions that are usuallystructure similar to those of feats, spells, and magic items. triggered when it's not the creature's turn are listed here.Because creatures have more abilities than those game Speed, followed by any other Speeds or movement abilities.elements, however, their statistics include more entries, Melee [one-act (traits; some weapon traits, such as deadly, includemany of which have special formats. their calculations for convenience) The name of the weapon or unarmed attack the creature uses for a melee Strike, A creature's traits line sometimes begins with a rarity; followed by the attack modifier and traits in parentheses if the creature's rarity is common, no rarity is listed. The If a creature has any abilities or gear that would affect itsnext entry is its alignment, which is given as a one- or attack modifier, such as a weapon with a +1 weapon potencytwo-letter abbreviation (LG for lawful good, N for neutral, rune, those calculations are already included, DamageCE for chaotic evil, and so on); these abbreviations are amount and damage type, plus any additional effects (thislisted comprehensively on page 345. Next is the creature's entry is Effect if the Strike doesn't deal damage).size (Tiny, Small, Medium, Large, Huge, or Gargantuan). Ranged [one-act As Melee, but also lists range or range incrementAny other traits are then listed. The traits appearing in with traits, Damage as Melee. Spells The entry starts with the magical tradition and whether the spells are prepared or spontaneous, followed Page 2 Published by Pablo, 2019-11-26 07:03:03 pathfinder 2e monster manual pdf
